The International Academy of Science and
Engineering for Development

Energy and Environment Engineering

Nuclear Energy and Engineering, Renewable
Energy, Sustainability and the Environment,
Environmental Chemistry and Pollution...

Energy and Environment research focuses on tackling the key challenges of the generation, storage and provision of energy and protecting our environment for a cleaner future. Through months of preparation and with collaborative efforts of all the speakers, committee members, conference secretary and student volunteers, IASED will provide more open and brilliant platform for global researchers, engineers, practitioners and policy makers. In these conferences, ground-breaking studies and analysis will be shared, insightful ideas will be discussed, and new trends of the theoretical and applied fields of energy and environment engineering will be presented vividly in front of audience.

FORTHCOMING CONFERENCES AT A GLANCE

CFEEE 2022

Qingdao, China • August 19-21, 2022

This will be an energetic, stimulating and informative event, convening scientists, researchers, experts and delegates from the energy and environment engineering arena. Being part of it, you will have opportunities to meet colleagues and friends, learn and share experiences.

*2022 International
Conference on Frontiers of
Energy and Environment
Engineering*

www.cfeee.org

cfeee@iased.org

This conference is focused on modern concepts of sustainable and green infrastructure and environmental practices with consideration for global implications of burgeoning urbanization, climate change, and stewardship of coastal and other sensitive environments. The conference aims to present recent global developments in coastal engineering, environmental-friendly construction and development practices, green building materials, architectural design innovations, sustainable cultivation and conservation practices, land reclamation and re-purposing concepts, and advances in environmental analysis and monitoring. We will focus on the as-built world as we currently know it, and what is not known about cities and resource developments of the future.

ICCAEE 2022

Shanghai, China (Hybrid Conference)
October 21-23, 2022

*2022 International
Conference on Civil,
Architectural and
Environmental Engineering*

www.iccaee.net

iccae@iased.org

CCESG 2022

Qingdao, China • August 19-21, 2022

CCESG 2022 welcomes researchers, engineers, scientists and industry professionals to an open forum where advances in the field of Clean Energy and Smart Grid can be shared and examined. The conference is an ideal platform for keeping up with advances and changes to a consistently morphing field.

*2022 International Joint
Conference on Clean Energy
and Smart Grid*
