IASED

BRING YOU THE LATEST NEWS ABOUT IASED ANNUAL CONFERENCES.

Organized by School of Electrical Engineering, Guangxi University, Professional Committee of artificial intelligence and electrical application of China Electrotechnical Society and The International Academy of Science and Engineering for Development (IASED), 2022 International Conference on Frontiers of Energy and Environment Engineering (CFEEE 2022) will be virtually held during December 16-18, 2022.

FORTHCOMING

CONFERENCES

CFEEE 2022

By here, you will have opportunities to meet scientists, researchers, experts and delegates from the energy and environment engineering area, learn and share experiences.

SPEAKERS

CFEEE 2022

Prof. John D Graham

John D. Graham earned his Ph.D. in public affairs at Carnegie-Mellon University (Pittsburgh, PA, USA) where his dissertation addressed risks and benefits of automobile airbag technology. He became a tenured professor at the Harvard School of Public Health where he was the founding director of the Harvard Center for Risk Analysis (1990-2000). More recently Professor Graham served as an administrator and professor at Indiana University where he teaches the tools of risk analysis, policy analysis and benefit-cost analysis.

Speech Title: The Global Electric-Car Industry: Past, Present, and Future

Prof. David Infield

Professor David Infield is presently Editor-in-Chief of IET Renewable Power Generation and has contributed to various IEC, CENELEC, and IPPC activities related to renewables. He has published over 100 journal papers on renewable energy, most of these in wind energy, and has supervised numerous PhD students. He is presently External Examiner for an MSc course at the University of Malta and a regular collaborator with North China Electric Power University in Beijing.

Speech Title: How can Smart Grids Contribute to Sustainable Energy Supply?
