CONFERENCE OVERVIEW

2023 International Conference on Data Mining and Knowledge Discovery (DMKD 2023) will be held in Chongqing University of Posts and Telecommunications, Chongqing, China on 24-26 June, 2023.

DMKD is an annual international conference which is dedicated to providing the platform and opportunities for researchers, scientists and delegates from communities of different areas to exchange and share their experiences and discoveries, discuss practical issues and challenges encountered, explore applications and solutions in the common research field of Data Mining and Knowledge Discovery.

CAMME 2023

All academic practitioners around the world are encouraged to submit their research abstracts, papers and posters based on conference scope, and present their work through demonstrations, tutorials, oral and poster presentations at the conference.

KEYNOTE SPEAKERS

Professor Yu-wang Chen

The University of Manchester, UK

Speech Title:

Data, Knowledge and Decision Analytics

Professor David L. Olson

University of Nebraska, USA

Speech Title:

Knowledge Management in the Big Data Era

Professor Christopher W. Clifton

IEEE Fellow
Purdue University, USA

Speech Title:

Machine Learning Induced Unfairness

Professor Philippe Fournier-Viger

University of Nebraska, USA

Speech Title:

Advances and challenges for the automatic discovery of interesting patterns in data
