2024 **IEEE** 8th International Conference on Vision, Image and Signal Processing

WELCOME TO ICVISP 2024

It is with great pleasure that we invite you to the 2024 **IEEE** 8th International Conference on Vision, Image and Signal Processing (ICVISP 2024), which is scheduled to take place from December 27 to 29, 2024, in Kunming, China. The conference is organized by Yunnan Normal University, co-organized by Sun Yat-sen University, Shenzhen University and National Engineering laboratory for Big Data System Computing Technology.

KUNMING, CHINA

ORGANIZED BY

中国联合会

CO-ORGANIZED BY

SPECIAL SESSIONS

01

Session I - Remote Sensing Image Intelligent Interpretation

Chairs: Qiang Li, Xidian University, China

Chao Shen, Xi'an Technological University, China

02

Session II - Advanced Machine Learning Technologies and Their Applications in Image Restoration and Intelligent Imaging

Chairs: Licheng Liu, Hunan University, China

Yunyi Li, Hunan University of Science and Technology, China

03

Session III - Visual, Image and Signal Processing Innovative Application in Education

Chair: Juxiang Zhou, Yunnan Normal University, China

04

Session IV - Pattern Recognition in Computer Vision

Chair: Hewei Yu, South China University of Technology, China

05

Session V - ISAR Imaging and Information Acquisition

Chair: Prof. Shuai Shao, Xidian University, China

06

Session VI - Target Detection and Measurement Based on Computer Vision

Chair: Hewei Yu, South China University of Technology, China

07

Session VII - The Application of Artificial Intelligence in the Field of Meteorology

Chair: Shuai Shao, Xidian University, China
