JCCME 2023

JCCME gives researchers and engineers from around the world the opportunity to present and discuss recent developments in the field. The event will offer a pleasant environment to establish avenues of new cooperation and work. All accepted and presented papers will be published in digital conference proceeding, which will send to be reviewed and indexed by major citation databases such as Ei Compendex, Scopus, CPCI, Google Scholar etc. Excellent papers will be considered for submission in Special Issue "Marine Geotechnical Engineering and Marine Civil Engineering Construction (Volume II)" after significant extension.

ICCAEE 2023

- Civil and Architectural Engineering
- Environmental Science & Environmental Engineering
- Architecture & Building Materials

ICCAEE offers a platform for researchers, academics, professionals, and industry experts from around the globe to foster new collaborations, gain fresh perspectives, and shape the future of civil, architectural and environmental engineering.

We encourage you to mark your calendars for ICCAEE 2023 and join us in this enriching experience, and we eagerly anticipate the insights and expertise you will bring.
