

NANOMT 2023

2023 International Conference on Frontiers of Nanomaterials and Nanotechnology (NanoMT 2023) will be held in Wuhan, China on September 22-24, 2023.

NanoMT
— 2023 —

ORGANIZED BY

NanoMT 2023 is organized by School of Advanced Materials and Nanotechnology, Xidian University, Wuhan National High Magnetic Field Center and School of Chemistry and Chemical Engineering, Nanning University.

NANOMT

2023.9.22-24 | Wuhan, China

CONFERENCE CHAIRS

Huangxian Ju

Professor Huangxian Ju, born in November 1964, received his Bachelor of Science, Master and PhD degrees from Nanjing University in 1986, 1989 and 1992 respectively, and was then employed as a faculty member by Nanjing University. He worked as postdoctoral fellow at Montreal University in Canada from 1996 to 1997 and then was employed as a full professor at Nanjing University in 1999. He was awarded with a National Science Fund for Distinguished Young Scholars in 2003, Changjiang Scholar Professor by the Ministry of Education in 2007, the National Key Talents in The New Century and the chief scientist of the 973 project in 2009, and the special government allowance of the State Council in 2011. He is currently the director of the State Key Laboratory of Life Analytical Chemistry, a fellow of the International Electrochemical Society and a fellow of the Royal Society of Chemistry.

Dongfeng Xue

Xue Dongfeng, born in Fangcheng County, Henan Province in December 1969, is a researcher and doctoral supervisor. He graduated from Henan University with a Bachelor's degree in Applied Chemical Engineering in July 1993. In July 1998, he graduated from Changchun Institute of Applied Chemistry, Chinese Academy of Sciences with a Doctor of Science degree in Inorganic Chemistry. After that, he worked as a postdoctoral fellow at the Department of Physics at the University of Osnabruck in Germany (Humboldt Scholar), the Department of Chemistry at the University of Ottawa in Canada, and the National Institute of Materials Science (JSPS) in Japan. From 2014 to 2018, he was selected to Elsevier China's Most Cited Scholars list for four consecutive years. He was elected a Fellow of the Royal Society of Chemistry in 2018.

Rusen Yang

Yang Rusen, doctoral supervisor. He received his bachelor's degree in physics and Master's degree in condensed matter Physics from Jilin University in 1998 and 2001 respectively. He received his PhD in Materials Science and Engineering from Georgia Institute of Technology in 2007. After three years of postdoctoral research, he became an assistant professor in the School of Mechanical Engineering at the University of Minnesota in 2010 and is now a professor in the School of Advanced Materials and Nanotechnology at Xidian University.

Professor Yang Rusen Organized the Nanoenergy chapter of the American Society of Materials Annual Meeting three times; He was invited to give more than 10 invited presentations at international academic conferences. He received the Nano Energy Award (2017), the 3M Non-tenured Faculty Award (2014), and the NSF Career Award (2017). 2012); He was awarded the McKnight Land-Grant Professorship by the University of Minnesota in 2013. Published in Science, Nature Nanotech, Nano Lett, Adv. Mat., J. Am. Chem. Soc., Appl. Phys.Lett. He has published more than 70 papers in internationally renowned journals, and has been cited more than 7,000 times.
