2025 3rd International Conference on SmartRail, Traffic and Transportation Engineering

- 2025 3rd International Conference on SmartRail, Traffic and Transportation Engineering (ICSTTE 2025) on **November 7-9, 2025**. The conference will be held in **Pingtang Island, China**. It is organized by **Fujian University of Technology**.
- We are looking forward to your presence and wish you enjoy programs of sharing and interacting.

Conference Venue Introduction

As an island county located off the east coast of Fujian province, Pingtan is the closest place on the Chinese mainland to the main island of Taiwan. Pingtan county, also known as the Pingtan Comprehensive Experimental Zone, is part of the China (Fujian) Free Trade Zone that focuses on further opening up cross-strait communication.

Pingtang is the largest island in Fujian province. Its beautiful natural scenery and the local culture has been well preserved, and its many wetlands make Pingtan a paradise for birds. Thanks to its long winding coastline and abundant wetland resources, Pingtan is a perfect habitat for migratory birds to rest or forage during the winter-to-spring period. For Pingtan, the blue sea, silver beach and the green water and mountains are important environmental foundations for its sustainable development, and they are advantageous resources for supporting high-quality growth. The zone is seeing a boom in tourism development as it's actively building itself into an international tourism island.

PINGTAN ISLAND, CHINA

2025 3RD INTERNATIONAL CONFERENCE ON SMARTRAIL, TRAFFIC AND TRANSPORTATION ENGINEERING

NOVEMBER 7-9, 2025

PINGTAN ISLAND, CHINA

Keynote Speaker

PROF. LIMIN JIA
BEIJING JIAOTONG UNIVERSITY, CHINA

Call For Papers

Learn more on www.icstte.org/cfp

Topics of interest for submission include, but are not limited to:

Track 1: Intelligent Equipment and Technology for Rail Transit

- High-speed trains
- Rack-type trains
- Straddle-type monorail vehicles
- Suspended monorail vehicles

Track 3: Transportation Planning

- Urban ecology
- Travel characteristics
- Land use and urban design
- Environmental considerations

Track 2: Railway-Air-Maritime Transportation

- Geometric design of track
- Railway stations and yards
- Track drainage
- Alignment of railway lines

Track 4: Highway Transportation

- Transport dynamics
- Intersections and roundabouts
- Emergency response systems
- Highway geometric design

Publication

Conference presented and registered full paper will be included in digital conference proceeding, and submitted to major citation databases like Ei Compendex, Scopus etc. for reviewing and indexing.
