ISCSIC 2025

2025 9th International Symposium on Computer Science and Intelligent Control

2025 9th International Symposium on Computer Science and Intelligent Control (ISCSIC 2025) will be held in Hangzhou, China during September 26-28, 2025. It is organized by Zhejiang University of Science and Technology, co-organized by Hangzhou Normal University and Beijing University of Chemical Technology, and technically co-sponsored by IEEE and IEEE Nanjing Section.

Hangzhou, China
September 26-28, 2025

ISCSIC focuses on theory and applications mainly covering the topics of unmanned systems, cyber-physical systems, computer vision, image and signal processing, pattern recognition, artificial intelligence, navigation and guidance, autonomous decision-making and control, Information security, intelligent systems, robotics, industrial process control, big data analytics, modeling and optimization. We will invite prominent domestic and international academicians and researchers in the areas of the conference to give presentations and share their work for interaction and discussions. This conference aims to bring together researchers in the areas related to Computer Science and Intelligent Control in a single platform and present their stimulating research and knowledge transfer ideas in both Computer Science and Intelligent Control. In addition to the technical sessions, there will be invited sessions, plenary panel sessions and keynote addresses.

Organizers: Zhejiang University of Science and Technology

Co-organizers: Hangzhou Normal University   Beijing University of Chemical Technology

Supporters: University of Science and Technology Beijing   Shandong University
Sun Yat-sen University   Xi'an University of Technology   Beihang University
Huzhou University   Hefei ASUNX Semiconductors Co., Ltd

Technical Co-sponsors: IEEE   IEEE Nanjing Section

2025 9th International Symposium on Computer Science and Intelligent Control (ISCSIC 2025)

September 26-28, 2025 | Hangzhou, China

Call for Papers

Topics of interest for submission include, but are not limited to:

Computer Science

- Computer Vision
- Big Data Analytics
- Pattern Recognition
- Information System
- Computer Security
- Computer Network
- Computer Simulation
- Artificial Intelligence
- Modeling and Optimization

Intelligent Control Technology

- Unmanned Systems
- Cyber-Physical Systems
- Intelligent Control
- Networked Control
- Adaptive Control
- Sliding Mode Control
- Anti-Disturbance Control
- Health Management
- Automatic Control Theory

Special Sessions

Session I : Intelligent Optical Engineering Technology and Application

Session II : Key Technologies and Applications of Humanoid Robots

Session III : Autonomous Decision-Making and Control Theory for Unmanned Systems Based on Artificial Intelligence

Session IV : Underwater Acoustic Signal Processing

Session V : Machine Learning-Driven Industrial Applications

Session VI : Intelligent Measurement and Control System and Its Application

Session VII : New-Gen AI-Driven Process Monitoring & Fault Diagnosis for Complex Systems

Session VIII: Secure and Trustworthy Industrial Intelligent Monitoring

Session IX : Multi-Scale Spatiotemporal Feature Fusion and Deep Generative Modeling for Industrial Process Monitoring

Session X : Control and Optimization of Cyber-Physical Systems

Publication

All accepted and presented papers will be included in ISCSIC 2025 conference proceedings (ISBN: 979-8-3315-6593-0), which will be published by IEEE and submitted for inclusion into IEEE Xplore subject to meeting IEEE Xplore's scope and quality requirements, and also submitted to Ei Compendex and Scopus for indexing.

Keydates

Abstract Submission Due: July 25, 2025

Full Submission Due: August 8, 2025

Author Notification Due: August 22, 2025

Registration Due: September 5, 2025

Camera-ready Submission Due: September 5, 2025

Main Conference: September 26-28, 2025
