2026 10th International Conference on Vision, Image and Signal Processing (ICVISP 2026)

DECEMBER 11-13, 2026 | HAIKOU, CHINA

WELCOME TO ICVISP 2026

It is with great pleasure that we invite you to the 2026 10th International Conference on Vision, Image and Signal Processing (ICVISP 2026), which is scheduled to take place from December 11-13, 2026, in Haikou, China.

ICVISP is committed to delivering a platform for collaboration and discovery, with the aim of driving progress in image, vision, and signal processing—key technologies that are enhancing our understanding of the world and propelling advancements in artificial intelligence, machine learning, and a multitude of other applications that are transforming industries and improving lives.

We warmly invite your contributions and eagerly anticipate the opportunity to meet with you in person at ICVISP 2026.

VENUE

Haikou, China

Haikou, known also as the 'Coconut City', is the capital of Hainan Province and serves as its political, economic, cultural and commercial centre, standing at the northern end of Hainan Island on the west bank of the Nandu River estuary. With the sea on three sides, Haikou enjoys a long coastline that features excellent bathing beaches and seaside resorts, while offering modern and convenient public transport facilities—all the best of a tropical seaside city that is pollution-free and meets the needs of tourists in a friendly and welcoming way. Besides its natural resources, Haikou also boasts a number of important sites of historical interest.

PUBLICATION

Registered and presented full papers will be included in the ICVISP 2026 digital conference proceedings and submitted to major citation databases (including, but not limited to Ei Compendex and Scopus) for review and indexing.

Note: All accepted papers must be presented at the conference. No-show papers will be excluded from the conference proceedings

The topics of interest include, but are not limited to:

Computer Vision

- 3D Computer Vision
- Adversarial Attack and Defense
- Document Analysis and Understanding

Signal Processing

- Applied Signal Processing Systems
- Audio & Acoustic Signal Processing
- Biomedical Imaging & Signal Processing

Applications

- Augmented and Mixed Reality
- Autonomous Driving
- Mental Health and Cognitive Stimulation

Image Processing

- Synthesis, Rendering, & Visualization
- Computational Imaging
- Restoration & Enhancement

Multimodal AI

- Multimodal Data Modeling
- Multimodal Data Fusion
- Cross/Multi-modal Learning

SUBMISSION NOTES

1. Language Requirement: The conference exclusively accepts manuscripts written in English. All submissions must be composed entirely in English.

2. Academic Integrity: Any form of plagiarism, copying, or improper citation is strictly prohibited. All manuscripts will undergo originality screening. Submissions suspected of plagiarism or serious academic misconduct will not be sent for review and may be summarily rejected.

3. Originality and Unpublished Status: Submitted manuscripts must represent original research findings. The content must not have been published previously in any domestic or international publicly available publication (including journals, books, etc.) or presented at any other academic conference (including predecessors or related conferences of this event).

4. Manuscript Length: The length of the manuscript's main body (including figures, tables, and references) shall be no fewer than 5 pages.

5. Formatting Specifications: Manuscripts must adhere strictly to the latest official paper template
