2026 5TH INTERNATIONAL CONFERENCE ON FRONTIERS OF ENERGY AND ENVIRONMENT ENGINEERING

It is our great honor to invite you to the 2026 5th International Conference on Frontiers of Energy and Environment Engineering (CFEEE 2026) which is organized by Zhengzhou University of Light Industry and co-organized by CoreShare Academic Exchange Center. The conference is scheduled to be held in **Zhengzhou, China** from **November 6-8, 2026**.

This will be an energetic, stimulating and informative event, convening scientists, researchers, experts and delegates from the energy and environment engineering area. Being part of it, you will have opportunities to meet colleagues and friends, learn and share experiences.

Our organizers do their best to ensure an exciting conference program to create an enjoyable memory for all participants.

The conference program lasts for three days. It will feature excellent international invited speakers, and oral and poster presentations, covering subject areas across the spectrum of energy and environment engineering in plenary and parallel session formats.

We look forward to welcoming and meeting you!

Key Dates

Final Round

Camera-ready Submission Due:
October 23, 2026

Main Conference:
November 6-8, 2026

*Note: All dates refer to Beijing Time (CST, UTC+8)

Submission

Authors are welcome to submit your abstract / full paper through the online submission system:

<https://cmt3.research.microsoft.com/CFEEE2026>

Submission Guidelines

1. Manuscripts submitted to the conference should be written in English only.
2. Manuscripts submitted to the conference should follow the template provided.
3. Manuscripts can be submitted in Doc, Docx and PDF format.
4. Oral or Poster presentations should be nominated while submitting an abstract.
5. The ordinary length is suggested no less than 5 pages, including all figures, tables, references, and appendices. If the paper exceeds 5 pages, the additional pages will be charged at the time of registration.

Tracks

Track I : Data Intelligence Empowering the Security, Stability, and Resilience of Power Systems with High Penetration of Renewable Energy

Track II : Intelligent Energy Agents for New-Type Power Systems: Wind and Solar Power Forecasting, Electricity Price Modeling, and Energy Storage Optimization

Track III : Coordinated Operation and Intelligent Control of Low-carbon Integrated Energy Systems

Track IV : High-Performance Operation and Control of Electric Drive Systems

Track V : Specialty Motors and Drive Control

Track VI : Collaborative Control of Transmission, Distribution, and Microgrids for Security and Stability Enhancement under High-Penetration Renewable Energy

Special Sessions

Special Session I : Power Converter Topologies and Control Technologies for New Power Systems

Special Session II : Situational Awareness and Intelligent Control for Power Systems

Special Session III : Relay Protection Technology and Practice in Power Systems with Power Electronics

Publication

Registered and presented full papers will be included in the CFEEE 2026 digital conference proceedings, which will be published by Springer Book Series-Environmental Science and Engineering (ISSN: 1863-5539), and also submitted to major citation databases (including, but not limited to Ei Compendex and Scopus) for review and indexing.

Compendex on
Engineering Village **Scopus**
